- Wave of Innovation in Lighting -  
(Formerly known as EKO LED)

### About us

**LED Waves Lighting Trading L.L.C**, formerly known as Eko Led Lighting Trading LLC, was established in 2022. This name change reflects our strategic vision to better serve the GCC market with high-quality, energy-efficient lighting solutions. Our commitment to sustainability, cutting-edge technology, and customer satisfaction drives us to provide eco-friendly LED solutions that not only illuminate spaces but also contribute to a greener planet.

Managed by lighting industry specialists with over 25 years of experience in the GCC region, our dedicated team of lighting and electrical experts can design and develop customized lighting solutions to meet any customer requirements.

We focus on innovative technology that enhances energy efficiency and reduces CO2 emissions. Our goal is to deliver ecologically responsible and sustainable solutions for all our projects. We are committed to offering our partners practical, professional, and high-quality lighting solutions that meet clients' needs and budget expectations, ensuring complete customer satisfaction.

### Our Mission

At **LED WAVES**, our mission is to illuminate the world with sustainable and aesthetically pleasing LED lighting solutions. We leverage Chinese manufacturing efficiency and our strategic location in the UAE to provide products that seamlessly blend form and function while meeting the highest quality standards.

### Our Vision

To exceed our customer's expectations in quality, delivery, and cost through continuous improvement and customer interaction.

**Expertise:** Our products are crafted with a focus on excellence, ensuring that each LED solution not only meets technical requirements but also adds a touch of sophistication to its surroundings.

### Innovative Technology

We leverage the latest advancements in LED technology to create lighting solutions that offer superior performance, durability, and energy efficiency.

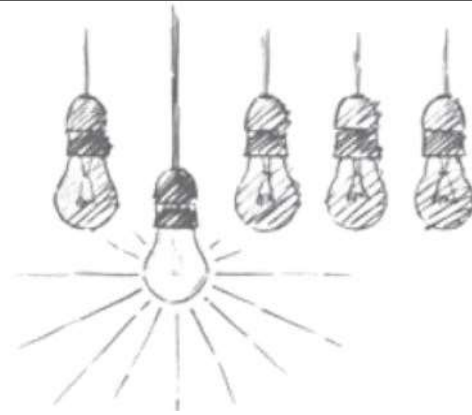

**Customized Solutions:** Our team of experts collaborates with clients to understand their unique lighting needs and provides tailored solutions, ensuring maximum efficiency and cost-effectiveness.

**Sustainability Focus:** LED Waves is committed to sustainability. We leverage the latest advancements in LED technology to make our products both future-ready and environmentally conscious. We take pride in our role in reducing carbon footprints and promoting sustainable practices. By reducing energy consumption and promoting eco-friendly practices throughout our supply chain, we contribute to environmental conservation.

**Comprehensive Product Range:** From residential and commercial lighting to industrial and outdoor applications, our diverse product range caters to various needs. Whether it's a sleek office lighting system, robust industrial fixtures, lighting poles, wiring accessories, lighting controls, or LED power supplies, LED WAVES has a solution.
